

Sometimes it's the little things that make a big difference. Folded cloth napkins are an added touch that show your guests that you care. Here is a fairly simple napkin fold, called the Ice Cream Cone, courtesy of the Butler's Guild.

1. Start with a flat napkin.

5. Fold next layer back and inside - again leaving about an inch exposed.

6. Turn the whole thing over.

7. Fold right and left points together so that they overlap forming the "cone".

8. Flip back over. Slide silverware into the cone pocket.

4. Fold next layer back and inside, leaving about an inch exposed.

Setting the Scene

Here are even more visual ideas on how to dress up a cloth napkin. ----->
